route 1 OROPESA DEL MAR FROM THE COAST

coastal route

Distance covered: 4 km.

Approximate time: 1h 45'

Is a route along the Oropesa coast where we will experience the idyllic setting of this town situated on the Mediterranean Sea.

La Concha beach, the lighthouse, Torre del Rey and many more attractions await us.

route through the old town

Distance covered: 1,1 km.

Approximate time: 1h 15'

Oropesa del Mar: a journey through time immerses you in the local history through a pleasant visit through the old town. On this route we will visit the castle, the Virgin of Patience Church, Naturhiscope, the Iron Museum and the Playing Cards Museum, among other places of interest.

OROPESA del MAR

AUDIO GUIDE ROUTES OF OROPESA DEL MAR

The Audio Guides of Oropesa del Mar will give you the opportunity to visit the principal places of interest in the area while at the same time receiving visual, technical and historical information from the different points along each route.

The service is adapted, free of charge, for sign language through a sign guide in video format with induction loops for hearing aids, enabling the deaf or hard of hearing to access the information fully.

How to get the audio guides and sign guides:

i In person: loan of players and induction loops in Tourist Info Oropesa del Mar. (Paseo de la Concha s/n). Tel.: 964 312 320 and Naturhiscope (Plaza de la Iglesia, nº 6.Tfn: 964 31 30 26)

W Online downloads: www.audioguiasoropesadelmar.com

36 At each point on the route there is a QR code which allows you to download information in situ.

CONDITIONS OF USE*

One MP3 or MP4 player will be issued per person and an ID document must be left as a deposit. If the MP3/MP4 player is lost or broken, the user will be responsible for replacing the device. The player must be returned to Tourist Info or Naturhiscope during the opening hours specified in the office.

*The availability of the Mp3/Mp4 players at any time is subject to the demand for them.

SIGN GUIDE AND MAGNETIC LOOP

The guided visit is adapted completely for deaf people and those with hearing disabilities. An adaptation of the visit in sign language via the Sign Guides is available for tourists. Tourist Info and Naturhiscope also have mobile induction loops available for those with hearing aids.
